Skills

BLOCKCHAIN

Aptos-move, Solidity, EVM,
Foundry, hardhat, remix,
NFT, Dex, DeFi, DAO

MOBILE DEVELOPMENT

React-Native(js), Flutter(dart),
Android(Java)

WEB DEVELOPMENT

React, Node, JavaScript
C++, Java, python

BUSINESS TOOLS

GCP- firebase/firestore,
dialogflow, AutoML,
WordPress.

Education

2016-2021
I-MTECH IN CSE
IIIT-Bangalore

2013-2015
HIGHER SECONDARY
Aravali public school,Sikar

2013
SECONDARY SCHOOL
Ryan International School, Jaipur

Hobbies

Traveller, Trekking,
Musician, Guitarist,
Culture, Flow Arts, Sports,
Sketching, Painting

About Me

Web3 Full Stack and Smart Contract Developer with substantial experience building DeFi, NFT, and DAO solutions on EVM and Aptos. Successfully bridged USD 1B+ in private credit loans on-chain and built scalable DApps from ideation to launch. Passionate about Blockchain, CryptoAsset and Finance.

Most Recent Experience.

MAR 2025 - PRESENT **Pact Labs** **Web3 Full Stack**
Designed and deployed smart contracts on EVM and Aptos, powering over 1B USD in on-chain lending. Built and maintained React Native mobile apps for real-time blockchain interactions.

Aptos | Celo | EVM | React Native

JUN 22 - MAR 25 **Equistart Labs** **Web3 Full Stack**
Developed and scaled DApps including DAO tools, a Balancer V4/Uniswap V3-based DEX, and a decentralized crypto index fund

Foundry| hardhat| solidity | web3.js | ethers.js | open-zeppelin | more...

MAR - MAY 2022 **Celo Foundation** **Developer Relations**
Created tutorials and blogs to support Celo developers, and engineered a React Native framework to quickstart Web3 projects.

React-Native| web3js| celo| valora| Medium

JAN - JUN 2021 **ETG India** **Full Stack Dapp**
Built insurtech mobile app integrating image recognition with GCP; managed backend on Firebase and launched on Google Play.

GCP | React-Native | Firebase | Google Play Store

Achievements

SEPT-OCT, 2024 **Balancer Hookathon** **DoraHacks**
Won \$2000 in Prizes for developing a balancer V3 Volatility based fee hook for EVM smart contracts

SEPT-NOV, 2022 **Build With Celo hackathon** **Hackerearth**
Won an Aggregate of \$2500 in Prizes for developing a full stack mobile dapp, Equistart-The DAO suite.

AUG-SEPT, 2021 **Harmony hackathon** **Gitcoin**
Won the 1st Prize of \$20,000 for Developing a UI/UX for one wallet Mobile App, using react-native. Track-5 On-Chain Wallet "Frontend"

MAR- MAY, 2021 **Green NFT Hackathon** **Gitcoin**
Won \$1700 worth of crypto for Researching various NFT platforms and blockchains to determine their impact on Environment.
