## Experience

### CTO – Chief Technology Officer

Adpr Memetic Brand Labs

Feb 2026 – Present

Building the technical infrastructure for a memetic brand lab at the intersection of culture and code, leading engineering strategy and product architecture.

### Head of Web3 / Blockchain

CosX

Mar 2025 – Present

Leading Web3 and blockchain initiatives — working with founders and product teams to bring web3 products to life. Act as primary interface between AI/engineering org and protocol partners, aligning roadmap and delivery.

### Full Stack Aptos Move Developer

Pact Labs

Mar 2025 – Feb 2026

Built core smart contract infrastructure for Pact Protocol — an on-chain credit platform that brought \$1.5B+ USD of loan originations onto Aptos and EVM. Designed Solidity and Move contracts for origination, securitisation, repayments, and asset monitoring.

### Full Stack Web3 Developer

Equistart Labs

Jun 2022 – Mar 2025

Scaled multiple end-to-end DApps from ideation to production contributing to \$1.5B+ in bridged volume. Built DAO governance tooling, a Balancer V4 & Uniswap V3-based DEX, and a Decentralised Crypto Index Fund.

### Web3 Developer

Celo Foundation

Mar 2022 – May 2022

Contributed to mobile-first global digital payment tools at one of crypto's leading financial inclusion foundations, building user-centric interfaces accessible worldwide.

### Mobile App Developer

ETG India

Jan 2021 – Jun 2021

Led a development team to build a corporate insureTech hybrid mobile application using React Native, GCP AI tools, and Firebase for a major insurance sector client.

## Key Projects

### Crypto Index

Decentralised structured investment funds enabling index & mutual fund products on-chain via DeFi primitives.

Foundry · Balancer V3 · Uniswap V3 · React

### Simpli DAO

Full-stack DAO tooling for on-chain community governance — proposals, token voting, automated payouts.

Solidity · React · WalletConnect · Celo

### Rekt CEO

Web3 native brand bridging web2 community engagement with web3 digital ownership via NFT & Memecoin.

React · Solidity · IPFS

### Potshot

Live on-chain raffle game on Base chain with probabilistic smart contract mechanics. Deployed & active.

Solidity · Base Chain · React
