SUMMARY

Technical Product Leader and CTO with 5+ years taking Web3, DeFi, and on-chain finance products from discovery to production. Owned architecture and delivery for private credit rails that scaled to **\$2B+** in bridged private credit, plus AMM/index products, DAO tooling, and AI-agentic systems. Bridges engineering, protocol partners, and GTM with roadmaps, PRDs, UX flows, and measurable outcomes. Published on Hackernoon; runs a daily Web3 × AI signal practice on X and LinkedIn.
